Grading Rubric for Project 4

- Total points: 100

- ❿ Initial assessment: 5
- ❿ Code: 20
- ❿ Report: 75

* You must remove your name from the code as we will be using MOSS

- ❿ Initial assessment (5 points):
  - ↘ Includes Makefile, Readme file, your code, report in pdf format (all submitted individually)
- ❿ Code (20 points)
  - ↘ Well commented, correctly implemented
    * Your code MUST have detailed comments for each piece of code explaining what it does and how

- ❿ Report (75 points)
  - ↘ Abstract (3 points)
  - ↘ Introduction (4 points)
    - ✦ Be brief and concise
    - ✦ Give the motivation for this project
  - ↘ Methodology (20 points)
    - ✦ The experiments are clearly and concisely explained
    - ✦ The experiments assess the appropriate quantity, as specified in the description.
  - ↘ Results (40 points)
    - ✦ Plots show results clearly and concisely
    - ✦ Descriptions match the plots
    - ✦ Results are interpreted correctly and linked to the theoretical framework
  - ↘ Conclusion (3 points)
    - ✦ Explain the significance of your results
  - ↘ Quality of report (5 points)
    - ✦ Aesthetic presentation aspects such as figure presentation and grammar

Important issue:

If results produced by your code execution do not match the plots/results in your report, zero point will be given to plots/results and conclusions as they are not valid.
